

## *German Style Log Peelers*

W.G. Benjey's line of German style Log Peelers are designed for the rigors of producing log home and log furniture components. With Benjey peelers, you are able to get hand-peeled logs without much of the backbreaking labor. In addition to logs and posts, log siding profiles can be easily given a "hand peeled" look. With three models to choose from, you can find a peeler to meet your specific needs.
