"CUSTOM MACHINE DESIGN AND MANUFACTURING"

W.G. Benjie's Screw and Conveyor Division has the talent to fabricate new pump screws or conveyor screws and conveying systems to meet your exact needs. With over twenty years of experience in the field, we have a rebuild service second to none. Our proprietary design allows us to manufacture a pump screw that outlasts traditional pump screws two to one. Why settle for a run of the mill screw or poor rebuild? With W.G. Benjie's quality fast service and competitive pricing, the only thing you have to lose is down time.

New Pump Screw Features...

- Proprietary hard facing of flights and shaft
- Proprietary flight geometry
- Dynamically balanced at operating speed
- Improved wear sleeve
- Hollow shaft under the flights
- Dramatic weight reduction
- Non-alteration of existing pump

Conveyor Screws & Components...

- We build all sizes
- Twenty-four hour emergency service

Rebuild Screw Service...

- Inspect for damage to shaft
- Straightening of the shaft between centers
- Rebuild or replace flights
- Replace hard surfacing material
- Replace wear sleeve
- Replace air bushing (automatic)
- Inspect brass area condition
- Dynamically balanced on two planes

We at W.G. Benjie are driven to give you the quality and service you expect.

PUMP SCREWS

PUMP SCREW SPECIFICATIONS

Through engineering design and innovation skill, W.G. Benjey has developed a process that improves the properties of rebuilt and newly manufactured cement pump screws. These proprietary advancements have resulted in an improved useful life of the pump screw, while still generating a cost savings to the customer over conventionally manufactured pump screws.

We can rebuild your existing "H", "M", or "Z" type cement pump screws or manufacture you a new one of Benjey design. Our rebuilds of conventional pump screws normally last twice as long as the original and our manufactured pump screw will last up to three times longer than the conventional one.

Give the W.G. Benjey Screw and Conveyor Division a chance to provide a cost effective alternative to your company's needs.
